The Yum Factor

Dear Eugene

The Grade 8's of Wynberg Boys' High School have committed themselves this year to assist the Capricorn Park community by repairing windows, painting, and doing general maintenance at crèches and shacks. The project will be coordinated under the leadership of members of the **Living Hope Project**, an NGO whose headquarters are in Capricorn Park.

This is an annual initiative by the Grade 8's at Wynberg and, as a school; we give our full backing to this scheme. We regard the programme as a most worthwhile project for our young men to involve themselves.

The Market Day is but one of the various fundraisers we host throughout the year, in order to raise the money for this project. We do hereby extend our most sincere and heartfelt thanks for your assistance with the soft serve machine.

Thank you for the discounted hiring rate and for your extra mile service and support, phone calls and SMS messages to check that we were okay! This is really appreciated. The soft serve was a smash hit and we sold 30 litres of soft serve at our stall. Please be assured that your spirit of generosity has contributed greatly to the success of this venture, and that you have indeed played a major role in improving the quality of life of several underprivileged persons.

Once again, our sincere thanks.

J De Mink/M Wentworth  
(Market Day coordinators)
